Computer Science Department

Internship for Administrator for INVENT

Effort required: 20 hours total

Duration of internship: End of year

Number of positions: 1

Requirements: 2nd level UG or 3rd level UG

Most of the work is required at the beginning of the semester before the commencement of the Industrial project. The student has to create pages in several sites for the groups. Sites are project management tools: slack, trello, bitbucket, etc. Once projects are created he needs to invite all the students to the group and make sure that all projects are ready to start. During the semester he might provide technical support to all industrial projects.

The relevant skills required in order to apply for the internship are listed below:

Some knowledge of project management tools such as slack, git (bitbucket or similar), trello. A lot can be learnt on the way after the student begins.

Application deadline:

Send a short CV by email to dranidis@city.academic.gr by 11/11/2016 (Friday)
